Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to a process for preparing a catalyst, classified in class 502, subclass 325+.
 - II. Claims 15-21, drawn to a process for selective hydrogenation of a feedstream using the catalyst above, classified in class 585, subclass 651+.

The inventions are distinct, each from the other because:

2. Inventions I and II are unrelated (distinct). Inventions are unrelated (distinct) if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different processes which in turn yield different products. That is, the product produced by the process of Group I invention is not the same as the product produced by Group II invention.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. A telephone call was made to ***Mr. Scott R. Cox*** on ***September 23, 2003*** to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1754

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Cam Nguyen, whose telephone number is (703) 305-3923. The examiner can normally be reached on M-F from 8:30 am. to 6:00 pm, with alternative Monday off.
